New Leaf Prep Academy's Curriculum will focus on the whole child through highly researched, hands on teaching philosophies and techniques, mainly the Montessori Method. Hands-on learning is a proven way to keep students more engaged and increase retention. New Leaf Prep Academy will be curating critical thinkers, problem solvers, & self-motivated learners. Our holistic approach to learning examines all avenues that will affect lifelong student success including each child's academic skills, such as math and literacy skills, but also their social, emotional and cognitive skills. A minimalist environment free of technological distractions will aid in calming their mind and body and enable them to focus on the lessons and material at hand. New Leaf Prep Academy will feature low teacher to child ratios maxing out at 1:18 so students can safely learn through trial and error. Sensory-based and self-directed learning through nature exploration is a major component of our programming in addition to learning practical life skills such as tying shoes and caring for one's environment.
